For the wedding reception decorations, place potted artificial flowers in pots on the tables wrapped with a strand of pearls and lace. Use the same color for the flowers that are used in the bridal bouquets. The same type of flowers will not matter as much as the colors. Place the potted creations on the different tables. Leave little pads of paper on the tables for the guests to write their good wishes to the new couple. Decorate the cover of the pads with white lace and material. Add the words things you remember the most about him and her. This little keepsake will be cherished when the new couple reads the different memories of the friends and family and will fit into your wedding budget.
